**Description:**

These elements provides rapid relief from congestion and pain. Its widespread use rests on its safe and reliable action as an antiseptic, antiphlogistic and carminative.

Antioxidant are regularly included in poultry feed as protection from deterioration during storage.

Recently the interest for the use of natural phytochemicals in animal diets has been increased.

Thymol (THY) has been proven to be an effective antioxidant for extending broiler meat quality during storage. This study evaluates whether THY can also have a protective effect on the feed by assessing its antioxidant potential and related changes in fatty acid (FA) balance.

Sooths digestive tract especially intestine ,and good source for energy.

**Indication:**

- Growth promoter.
- Improve performance.
- Improve FCR.
- Antioxidant.
- Antibacterial.
- Increase feed consumption.

**Dosage:**

**Poultry:** add 1.5 ml / liter drinking water.

**Cattle, Goats and Sheep:** 5 ml / animal / day.

**Package:**

100, 250, 500 ml, 1, 5, 10, 20, 25, 200 liter.

**Product form:**

Liquid.

**Administration:**

5 teiba st, From Alhouda wa Alnour st,  
Mansoura, Dakahlia, Egypt.

**factory:**

Gamasa industrial zone 4 th area, Block B, No 6  
Gamasa, Dakahlia, Egypt.
