

# Water -Soluble Powder

## Valsintal (W.S.G) for poultry and pigs

### Composition:

Each 1 gm contains:  
Tylvalosin tartrate 714.95 mg  
(Eq. to Tylvalosin 625 mg)

### Indications:

Poultry: Treatment of Chronic respiratory disease, Infectious sinusitis caused by Mycoplasma gallisepticum.  
Pigs : for treatment of swine dysentery

## Doxyvestal (W.S.P) for poultry and pigs

### Composition:

Each 1 gm contains:  
Doxycycline hyclate 1000 mg (Eq. To doxycycline base 867 mg)

### Indications:

Poultry :-Treatment of respiratory tract Infections - Enteritis  
Pig: treatment of infections of the respiratory tract :- Atrophic rhinitis - Bronchopneumonia - Pleuropneumonia.

## Timusoft (W.S.P) for poultry and pigs

### Composition:

Each 1 kg contains :  
Tiamulin hydrogen fumarate 980 gm (eq. to Tiamulin base 793 gm )

### Indications:

Poultry : treatment of mycoplasmosis .  
Pigs:treatment of swine dysentery and enzootic pneumonia.

## Vetyloprim 75% (W.S.P) for poultry and pigs

### Composition:

Each 1 gm contains:  
Tylosin tartarate 872.88 mg  
(eq.to tylosin base 750 mg)

### Indications:

Poultry : Treatment of chronic respiratory disease (CRD) caused by Mycoplasma gallisepticum in chickens.  
Pigs: Treatment of swine dysentery and enzootic pneumonia

## Ceuticacillin (W.S.P) for poultry and pigs

### Composition:

Each 1gm contains:  
Amoxicillin trihydrate 700 mg  
(Equivalent to 610 mg base amoxicillin).

### Indications:

Poultry:treatment of Necrotic enteritis& Pasteurellosis and Colibacillosis  
Pigs: Treatment of Swine pleuropneumonia due to Actinobacillus pleuropneumoniae.

## ZOARIUM (Powder for Oral Solution) for poultry

### Composition:

Each 1gm contains:  
Amprolium hydrochloride 240 mg  
equivalent to amprolium base 212.2 mg.

### Indications:

poultry: Treatment of coccidiosis

## Doxitylobact (W.S.P) For calves, goats, poultry, sheep and pigs

### Composition:

Each 100 gm contain:  
Tylosin (as tartrate) 50 gm.  
Doxycycline (as hydrochloride) 20 gm.

### Indications:

For gastrointestinal and respiratory infections caused by tylosin and doxycycline sensitive micro-organisms, like Bordetella, Campylobacter, Chlamydia, E. coli, Haemophilus, Mycoplasma, Pasteurella, Rickettsia, Salmonella, Staphylococcus, Streptococcus and Treponema spp. in calves, goats, poultry, sheep and pigs.

## premix

### Coksprint

#### Premix for poultry

**Composition:**  
Each 1 kg contains:  
Amprolium HCl 282.7 gm (Eq. to Amprolium base 250 gm)  
Ethopabate 8 gm  
**Indications:**  
treatment of coccidiosis

### Vetyloprim 22% premix

#### for poultry and pigs

**Composition:**  
Tylosin (as phosphate) 100 gm/0.45 kg  
**Indications:**  
poultry : treatment of mycoplasmosis .  
Pigs: Treatment of swine dysentery and enzootic pneumonia

## Oral solution

### Tilmovira

#### Oral solution for poultry and pigs

**Composition:**  
Each 1 ml contains:  
Tilmicosin phosphate 250 mg (Eq. to Tilmicosin base 224.66 mg)  
**Indications:**  
Poultry : treatment of mycoplasmosis .  
Pig: treatment of actinobacillus pleuropneumoniae, pasteurella Multocida and Mycoplasma hyopneumoniae

### Paratec

#### Oral solution for cattle and sheep

**Composition:**  
Each liter contains:  
Levamisole hydrochloride 40 g/L.  
Closantel ..... 37.5 g/L.  
Albendazole ..... 25 g/L.  
Abamectin..... 1 g/L.

**Indications:**  
Treatment and control of Adult and immature gastrointestinal roundworms & Lungworm & Tapeworms and Itch mite

### Actoflorfen

#### Oral Solution for poultry and pigs

**Composition:**  
Each 1 ml contains:  
Florfenicol 23 mg  
**Indications:**  
Poultry : treatment of salmonellosis  
Swine: Treatment of swine respiratory disease .

### Zoarium

#### Oral solution for poultry

**Composition:**  
Each 1 ml contains :  
Amprolium(as Hcl) 250 mg/ ml

**Indications:**  
Treatment of coccidiosis

### Diazineplex

#### Oral suspension for calves, sheep, goats, poultry and pigs.

**Composition:**  
Each 1ml contains:  
Sulfadiazine 400 mg  
Trimethoprim 80 mg  
**Indications:**  
For Gastrointestinal and respiratory infections caused by trimethoprim and sulfadiazine sensitive micro-organisms like E. coli, Haemophilus, Pasteurella, Salmonella, Staphylococcus and Streptococcus spp. in calves, sheep, goats, poultry and pigs.

# Solution for injection

## Gentaleader

Solution for injection for cattle, horse, poultry and pets

**Composition:**  
Each 1 ml contains :  
gentamicin base 80 mg

**Indications:**  
poultry, cattle, horse and pigs:  
treatment of gram - ve bacteria  
and some gram +ve  
dogs: For urinary tract infection .

## Dorapalm

Solution for injection for cattle ,sheep

**Composition:**  
Each 1 ml contains:  
Doramectin 10 mg  
Clorsulon 100 mg

**Indications:**  
Treatment and Control of Gastro-intestinal roundworms

## Kanapro

solution for injection for poultry , horse and pets

**Composition:**  
each 100 ml contains :  
kanamycin acid sulfate 7500000  
iu + N-acetyl-L-cysteine 7.5 gm

**Indications:**  
poultry : treatment of serious bacterial  
infections especially salmonellosis and  
CRD .  
horse : septic arthritis & Tenosynovitis .  
dogs : pyoderma , superficial ocular  
infection and lower urinary tract infection

## Ecomarboflex

Solution for Injection for cattle, poultry and pets

**Composition:**  
each 1ml contains:  
Marbofloxacin 160 mg

**Indications:**  
Cattle, poultry: - treatment of  
respiratory infections.  
dog , cat: treatment of susceptible  
bacterial infections.

## Amipharma

Solution for injection for poultry and horse

**Composition:**  
each 100 ml contains :  
Amikacin sulfate 16.69 gm (eq.to  
Amikacin base 12.5 gm )

**Indications:**  
Poultry : treatment of colisepticaemia ,  
fowl cholera and salmonellosis .  
Horse : osteomyelitis & septic arthritis .

## Profithromed

Solution for injection for cattle

**Composition:**  
Each 1 ml contains:  
Tulathromycin 100 mg  
Ketoprofen 120 mg

**Indications:**  
Treatment of bovine respiratory  
disease (BRD)

## ceftiofur

solution for injection for poultry , cattle , horse and pigs

**Composition:**  
each 1 ml contains : ceftiofur 50 mg /ml

**Indications:**  
cattle : treatment of acute bacterial respiratory disease and acute interdigital necrobacillosis  
horse , pigs : treatment of bacterial respiratory disease  
poultry : for control of early mortality associated with E.coli organism in day-old chicks

# Solution for injection

## Edetrimonal

Solution for injection for cattle ,sheep and horse

**Composition:**

Each 1 ml contains:  
Sulfadiazine 200 mg  
Trimethoprim 40 mg

**Indications:**

Horse: Treatment of Strangles disease- Bacterial enterocolitis - neonatal foals  
Cattle: Treatment of shipping fever complex and foot rot

## Viteprinexed

Solution for injection for cattle

**Composition:**

Eprinomectin 20 g/L  
Vitamin E acetate (dl mix rac) 50 g/L

**Indications:**

Treatment of Gastrointestinal roundworms & Lungworm

## Emaprotazol

Solution for injection for cattle and sheep

**Composition:**

Each 1ml contains:  
Imidocarb dipropionate 120 mg  
(as Imidocarb85 mg)

**Indications:**

For the treatment and prevention of bovine babesiosis

## Diphendramine

Solution for injection for cattle , horse and pets

**Composition:**

Each 1 ml contains : diphenhydramine HCL 20 mg

**Indications:**

-Anti-allergic .

## Emalevam

Solution for injection for cattle and sheep

**Composition:**

Each 1 ml contains:  
Eprinomectin 7mg, Ivermectin 7 mg and Levamisole phosphate 223mg

**Indications:**

Treatment and control of Gastro-intestinal round worm & Lungworm and Sucking Lice:

## Ketobion

Solution for injection in cattle , horse

**Composition:**

Each 1 ml contains: ketoprofen 150 mg.

**Indications:**

Anti-inflammatory and analgesic .

## Ivermectin

Solution for injection for cattle , sheep and pets

**Composition:**

Ivermectin 10 mg/ml

**Indications:**

Cattle: For the treatment of gastrointestinal nematodes, lungworms, warble flies, mites and lice  
Sheep: For the treatment of psoroptic mange (sheep scab), gastrointestinal nematodes, lungworms and nasal bots of sheep

# Solution for injection

## Jectabutazone20%

Solution for injection for horse and dogs

### Composition:

Each 1 ml contains:  
active ingredient:  
Phenylbutazone .....200 mg/ml

### Indications:

Treatment of musculoskeletal disorders in horses and dogs where the anti-inflammatory and analgesic properties of phenylbutazone can offer relief against inflammation, pain and lameness

## SantyProfen

Solution for injection for cattle , horse and pets

### Composition:

Each 1 ml contains:  
Carprofen 50 mg

### Indications:

Anti-inflammatory and analgesic .

## Ed lincovin

Solution for injection for poultry , pigs,cattle and pets

### Composition:

each 1 ml contains lincomycin  
300 mg

### Indications:

poultry : Treatment of Necrotic enteritis and mycoplasmosis  
pigs : Treatment of mycoplasma pneumonia and infectious arthritis.  
dog, cat : Treatment of skin and soft tissue infections.

## Edminera

Solution for injection for cattle

### Composition:

Each 100 ml contains:  
Calcium (as Calcium Borogluconate) 4.6 gm  
Phosphorous (as magnesium hypophosphite) 2 gm  
Magnesium (as Magnesium Hypophosphite) 0.8 gm.

### Indications:

Cattle: For the treatment of the Phosphorus,Magnesium deficiency and downer cow syndrome

## Edabcomplex

Solution for injection for cattle ,sheep and pigs

### Composition:

Each 1 ml contains:  
Vitamin A Palmitate 15,000I.U, Cholecalciferol (Vitamin D3) 25micrograms, Vitamin E Acetate 20mg, Thiamine Hydrochloride (Vitamin B1) 10mg, Riboflavin Sodium Phosphate (Vitamin B2) 5mg, Pyridoxine Hydrochloride (Vitamin B6) 3mg, Nicotinamide 35mg, Dexpanthenol 25mg and Cyanocobalamin (Vitamin B12) 25micrograms

### Indications:

For the prevention and treatment of vitamin deficiencies in animals
